JOINT PERMIT APPLICATION FORM

U.S ARMY CORPS OF ENGINEERS – FOR SECTIONS 404 AND 10

UTAH STATE ENGINEER’S OFFICE – FOR NATURAL STREAM CHANNELS

Application Number _____ / _____
 (assigned by): _____ Corps _____ State Engineer

Applicant’s Name (Last, First M.I. or entity if not an individual)	Authorized Applicant Representative (if any)	Applicant’s Telephone Number and Area Code
		Representative’s Telephone Number and Area Code
Applicant’s Address (Street, RFD, Box, Number, City, State, Zip)		
PROJECT LOCATION		
Quarter Section(s)	Section	Township
		Range
		Base & Meridian
County	Associated Watercourse or Watercourse to be Altered	Check one: <input type="checkbox"/> Within City Limits <input type="checkbox"/> Outside City Limits List town or nearest town:
Project location or address:		
Brief description of project including methods and equipment to be employed to complete the work:		
Purpose (justification) of project:		
Is this a single and complete project or is part of a larger project, continuing project, or other related activities? If so, please describe the larger project or other related activities.		
If project included the discharge of dredged or fill material into a watercourse or wetland: Cubic yards of material: Acreage or square footage of waters of the United States affected by the project: Source and type of fill material: Length of stream that will be impacted below ordinary high water elevation:		

Alternatives (other ways to accomplish project purpose):	
Describe any proposed mitigation to offset impacts to the stream channel.	
Cultural resource impacts: Are you aware of any cultural resources or any historic properties that will be impacted by the proposed project? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please explain:	
Has a cultural resource survey been conducted on the property where the proposed project is to occur? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please briefly explain the survey results:	
List other authorizations required by Federal, state, or local governments (i.e.: National Flood Insurance Program), and the status of those authorizations.	
Estimated starting date of project:	Estimated completion date:

Please complete the following checklist

Failure to indicate that all pertinent information has been submitted will result in your application being returned.

- Appropriate application processing fee payment (see fee schedule below).
- A clear site location map with enough detail to easily find the site, a recent aerial/satellite image of the site, and a USGS topography map (7.5 minute quadrangle map is recommended).
- Plan view and cross-sectional drawings showing all work requiring a permit, including fills, structures, borrow sites, staging areas and storage areas. The drawings must clearly demarcate the ordinary high water mark of the waters of the U.S. to be impacted. Professional drawings are not required; however, drawings must be scaled or indicate dimensions of the work to be completed.
- A restoration plan for any areas temporarily disturbed during work, including re-contouring, revegetation with appropriate native plants and maintenance and monitoring to ensure success for the restored area.
- Ground photographs taken from various locations of the proposed disturbance area.
- Please check the box if the proposed project involves bank stabilization or protection. If so, please complete the following:
 - A narrative demonstrating the proposed activity incorporates the least damaging bank protection methods. These methods include, but are not limited to, the use of bioengineering, biotechnical design, root wads, large woody debris, native plantings, and beach nourishment in certain circumstances. If rock must be used due to site erosion conditions, explain how the bank stabilization structure incorporates elements beneficial to aquatic organisms.

- ❑ A description of current and expected post-activity sediment movement and deposition patterns in and near the activity area.
- ❑ A description of current and expected post-activity habitat conditions, including the presence of fish, wildlife and plant species in the activity area.
- ❑ An assessment of the likely impact the work would have on upstream, downstream and cross-stream properties (at a minimum the area assessed should extend from the nearest upstream bend to the nearest downstream bend of the watercourse). Specifically, discuss how the project will impact the following:
 - Will the activity accelerate deposition or erosion?
 - Will impacts to sensitive species or habitats result from a change in suspended sediment load or turbidity?
 - Will the activity affect the diversity of the channel by eliminating in-stream habitat, meanders, or gravel bars?
 - Will the activity result in a shift in the main flow patterns?
- ❑ A planting plan which involves the use of native riparian plants, unless the applicant demonstrates it is not appropriate or not practicable.

Application is hereby made for a permit or permits to authorize the activities described herein. I certify that I am familiar with the information contained in the application, and that to the best of my knowledge and belief, such information is true, complete and accurate. I further certify that I possess the authority to undertake the proposed activities or am acting as the duly authorized agent of the applicant which is a **(check one of the following) commercial , non-commercial , or governmental entity.**

Signature of Applicant _____ Date: _____

I hereby certify that _____ is acting as my agent on this project.

Agent's address and telephone number: _____

Filing Instructions

Application supplements should be submitted on paper no larger than 11 x 17 inches or alternatively as PDF format electronic files. If more than one watercourse is to be altered as a result of the project, a separate application must be submitted for each watercourse. Application fees must be received by the Division of Water Rights at the time of application submission and must be either hand delivered or submitted through standard mail.

Application Processing Fees

Application fees are based on the type of entity applying for the proposed stream alteration project.

Commercial Entities:	\$2000.00	per application processed.
Non-Commercial Entities:	\$100.00	per application processed.
Governmental Entities:	\$500.00	per application processed.
